

# Get Cash Back on VacuFlush®

## Buy a VacuFlush® Toilet System\* and Get \$200 Factory Cash Back

VacuFlush technology, preferred by boat manufacturers and owners around the world, uses stored vacuum energy to clear the bowl instantly and propel waste to the holding tank — resulting in odor-free, clog-free performance.

VacuFlush is extremely energy efficient, drawing as little as two amps per flush. Miserly water consumption — as low as one pint per flush — increases holding tank flush capacity, letting you cruise longer between pump outs.

### Key Advantages

- Odor-free performance
- Increases flush capacity for longer cruising between tank pump outs
- As low as two amps per flush
- Look and performance of residential toilets
- Ideal for retrofitting
- Convenient electronic flush

With a VacuFlush toilet system, four people can take a long weekend cruise without returning to the dock for a holding tank pump out.

4 people average  
a total of 20  
flushes per day

VacuFlush uses  
only 1 pint of  
water per flush

20 gal. holding tank

Holding tank not  
full after 3 days  
and 60 flushes
